

# BIHAR RAJYA BEEJ NIGAM LIMITED

## Aspect-Impact Register (Doc No. BRBN/IMS/Aspect/Rg/01)

SI No	Process/ Activity	Environmental Aspect	Environmental Impact	Evaluation Parameter				S/ NS	Control Action
				Impact/Severity (A) (5-1)	Occurrence (B) (5-1)	Legal Concern (C) (5-1)	Total score (AxBxC)		
1.	Office activities	Use of Paper for printing	Depletion of resources	5	4	1	20	NS	Effort is being made for more and more on line communication
		Generation of E- waste (Computer related accessories)	Earth contamination	5	1	4	20	NS	Low E-waste generation, disposal through authorized agent
		Use of ACs	Air pollution due to emission	5	3	1	15	NS	Energy efficient ACs are used
		Use of electricity	Depletion of resources	5	4	1	20	NS	Strict instruction for switching off all power points when not in use
2.	Processing	Dust emission	Air pollution	3	3	4	36	NS	Planting more number of plant, herb and shrub around the processing plant
		Noise emission	Air pollution	3	1	4	12	NS	noise emission is within limit
		Generation of cotton waste during operation of machines and maintenance	Land contamination	3	2	4	24	NS	Proper segregation and disposal
		Transporting of seed	Air pollution through vehicle emission	3	3	4	36	NS	Transporters are insisted to provide transport with pollution certificate and Transportation of seed is done through shortest possible route to minimise the gaseous emission.
