

BIHAR RAJYA BEEJ NIGAM LIMITED

Objective and Targets [BRBN/IMS/OBJ/02]

Department	Standard	Objective and Target	Achievement (Previous year)	Achievement (Current year)
Production	QMS	Production and procurement of quality seeds more than 3 lakh quintal per annum Production of 10 nos new varieties of seeds per annum	Achieved 150000 Quintal of seed production and procurement. Introduced 3 new variety of crop seed in the seed production system.	
	EMS	Lesser impact on environment by optimum use of utilities- -to reduce consumption of paper -to reduce consumption of electricity	At max possible continue with paper less work. Whenever going out of our chamber or office put off light, fan, ac and other electric gadget.	
	ABMS	Hassle free and transparent transaction For purchase and sale of seed	All purchase or supplies or demand have been placed through	

			Quotation/Tender/EOI/GEM and passed through Purchase committee. No discrepancy reported.	
Processing	QMS	<p>-Increase the overall processing capacity upto 830000 Q/annum to meet the future requirement of processed seed.</p> <p>-To maintain the losses of seed during processing between 0.25 to 0.5% and undersize between 11-12 %</p>	<p>Present processing capacity is 530000 Q/annum.</p> <p>Losses of seed vary from 1-3% of quantity of seed processed and undersize of seed vary from 14-16% of the quantity of seed processed.</p>	
	EMS	Efficient and optimal utilization of machinery and plant and transporting to minimize the gaseous emission	Proper and timely maintenance of plant and machinery and for transporting using shortest possible route to minimise the gaseous emission.	
	ABMS	Hassle free and transparent transaction of all the activity	All purchase or supplies or demand have been placed through Quotation/Tender/EOI/GEM and passed through Purchase committee. No discrepancy reported.	

Quality Control	QMS	<p>-Scrutiny of Test reports at the shortest possible time</p> <p>-Analysis of Heavy metal, pesticide residue and nutritive value also to be introduced to have more control over quality of seed</p> <p>-To provide technical support to all concerned Department</p>	<p>-Checked the germination test result report within specified time.</p> <p>-</p> <p>Provided the technical expertise to all the concerned department.</p>	<p>-Already introduced</p> <p>-For organic seed production and to obtain NPOP certification for organisation as well as producer farmer.</p>
	EMS	<p>-to reduce consumption of paper</p> <p>-to reduce consumption of electricity</p>	<p>At max possible continue with paper less work.</p> <p>Whenever going out of our chamber or office put off light, fan, ac and other electric gadget.</p>	
	ABMS	<p>Hassle free and transparent transaction of all the activity</p>	<p>All purchase or supplies or demand have been placed through Quotation/Tender/EOI/GEM and passed through Purchase committee. No discrepancy reported.</p>	
Marketing	QMS	<p>To increase network of dealer, distributor and suppliers of seed to 468 in order to reach to maximum farmers.</p>	<p>457 dealer and distributor network formed in 2020.</p>	

		In future also reach out to the dealer and distributor in neighbouring state to expend the business. Target has been fixed to reach at least 5 dealer and distributor in other state.	Nil	
	EMS	Transportation of seed would take place through shortest possible route to minimise the gaseous emission and will be monitored through GPS (Transports which has the facility to use GPS shall be used)	Transporting of seed is being done using manual and hardcopy of route map.	
	ABMS	Hassle free and transparent transaction of all activity which includes <ul style="list-style-type: none"> - Payment to the supplier - Distribution of quality seed to the bona fide person - Timely preparation of work order and their release - Empanelment of dealer and distributor through proper evaluation 	All purchase or supplies or demand have been placed through Quotation/Tender/EOI/GEM and passed through Purchase committee.	
Accounts/ Finance/Administration	QMS	To maintain strong relation with different department and stakeholder for timely disposal of back end work	Department having good relation with all the department and dispose off the back end work on time	
	EMS	Optimal utilisation of the utilities to protect the environment	At max possible continue with paper less work. Whenever going out of our chamber or office put off	

			light, fan, ac and other electric gadget.	
	ABMS	Hassle free and transparent transaction of all activity	All purchase or supplies or demand have been placed through Quotation/Tender/EOI/GEM and passed through Purchase committee.	

Note: Since the system has just implemented and it is the beginning of the year, achievement would be assessed after few months
